

2024 WALNUT CROP INSURANCE OUTLINE

1. Insurable Crop & Qualification Requirements

- A. English walnuts only. (No black walnuts)
- B. Irrigated acreage only. Must insure all acres of walnuts in the county on which a share of the crop is received.
- C. Trees that have reached 6th leaf are insurable if planted spring of 2019 or before. Walnut orchards that are 5th leaf may be insured by request to RMA RO with 4th leaf records provided.

2. Insured Causes of Loss

- A. Any adverse weather resulting in damage to the bloom, poor pollination, lack of production or damage to the walnuts on the tree or on the ground during harvest. (i.e. rain, frost, hail, heat, wind etc.)
- B. Insects and plant disease unless insufficient or improper application of pest or disease control measures.
- C. Wildlife, birds, earthquake and fire.
- D. Failure of the irrigation water supply source occurring after March 1.

3. Yield Production Guarantee: Total dry in-shell net pounds

- A. Yield guarantee is based on the average of past delivered actual production history (APH) of total dry in-shell pounds from the acreage to be insured.
- B. Yield Adjustment Option – YA option available to replace disaster years with 60% of the T-Yield.
- C. Guarantee per Acre: Determined from the approved APH average yield per acre multiplied by the coverage level % desired by the grower.

- D. For young orchards or any unit with less than 4 years of production records, the average yield will be established by T-Yields to build a 4-year database or by the RSO with our inspection and request for higher preliminary yield.

4. Price Election - 2024: \$0.70 per pound, Certified Organic - \$1.15

This is the price paid per pound for each pound of loss below the unit guarantee.

5. Coverage Example:

Owner/operator of 200 acres of walnuts

10-year average yield = 5,000 lbs. per acre

80% coverage = 4,000 lbs. per acre

4,000 lbs. per acre X 200 acres = 80,000 lbs. unit guarantee.

Price elected \$0.70 X 80,000 lbs. = \$56,000 protection for total loss

COVERAGE LEVELS – CHOICES

50%, 55%, 60%, 65%, 70%, 75%, 80%, 85%

LOSS EXAMPLE:

80,000 lbs. – Unit Guarantee
- 27,500 lbs. – Harvested/Appraised in Shell Pounds
= 52,500 lbs. – Production Loss \$0.70 X 52,500 lbs. loss
= \$36,750 net indemnity

7. Notice of Damage or Loss

Policy holder must give notice agent when:

- A. Damage becomes apparent;
- B. The crop is damaged to the extent that the grower does not intend to further care for the crop or does not expect to harvest all or part of the acreage;
- C. At least 15 days before harvest if loss is probable and notice has not been given previously;
- D. Additional damage occurs during harvest;
- E. Harvest is complete, but no later than 15 days after.

8. Quality Adjustment – Mold Damage

Walnut production with insurable mold damage greater than 8% will be adjusted down by the factor in the special provisions. *Mold greater than 30% will not be production to count unless actually sold.

Quality Adjustment Factor (QAF)

Percent Mold	QAF
8.1 – 12.0	.900
12.1 – 16.0	.800
16.1 – 20.0	.700
20.1 – 24.0	.600
24.1 – 30.0	.500
30.1 – Higher*	.000 *(unless actually sold)

A. Commingled Production

At loss adjustment time, if production records are not kept so actual harvested production from separate units can be determined, units will be combined to reflect eligible unit division and losses will be determined accordingly. (i.e. insured loses the benefit of unit division when production is commingled)

9. Life of Contract: Cancellation & Termination

A. This is a continuous contract. The policy continues in force each year unless cancelled by the policyholder in writing prior to January 31, 2024.

B. If any insured acreage is sold after acreage reporting date during any crop year, the premium is still earned and payable from the original insured and a Transfer of Right to an Indemnity to the new owner must be executed. Indemnity will be payable jointly (may add new acres inspection up to acreage reporting date).

C. The policy will terminate for the next crop year if any premium and interest due is not paid by the termination date shown in the policy.

**Last day to sign up for the 2024 crop is
January 31st, 2024.**
